Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: In the specification at page 1 line 1 the status of the parent application needs to be updated with the current status of the application.

Appropriate correction is required.

2. Prosecution on the merits of this application is reopened based upon the newly cited prior art. Claims 1-8 are considered unpatentable for the reasons indicated below:

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Kimpton.

The device as claimed is disclosed by Kimpton with a gauge 10 having at least two edges 14, 11 a top 12 and a bottom 13, at least one of the edges 14 shaped to engage and match the corresponding external surface of a bottle in a direction parallel to the bottle axis, the at least one edge extending from the outside bottom of the corresponding bottle (page 1 lines 31-34), a scale 15 extending along the shaped edge, the scale having spacing changing as a function of the change in cross-sectional area of the bottle interior in the direction of the bottle axis, the scale beginning or ending measurement with the bottom of the bottle interior.

With respect to claims 2 and 6 Kimpton discloses the two edges being shaped to engage and match the external surfaces of bottles parallel to the bottle axis, the two edges being of dissimilar shape (abstract and page 1 lines 69-78).

With respect to claims 3 and 7 Kimpton discloses a display area (embodiment shown displays "Bailey's Irish Cream").

With respect to claims 4 and 8 Kimpton discloses a plurality of gauges differing from one another by edge shapes that match a plurality of complementary bottles page 1 lines 79-84.

Response to Arguments

5. Applicant's arguments with respect to claims 1-8 as provided in the appeal brief have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher W. Fulton whose telephone number is (571) 272-2242. The examiner can normally be reached on M-Th 5:30-3:00.
